Summary

Angular with 4+ years of experience building scalable, high-performance web and mobile applications using Angular (v12–v21), React Native, TypeScript, and the MEAN stack. Strong in REST API integration, RxJS, NgRx, and Reactive Forms, with hands-on Node.js/Express and MongoDB backend development. Delivered production-grade applications across healthcare, finance, and CRM domains — reducing page load times by 25% and development time by 15%. Experienced in cross-platform mobile (React Native, Expo, Ionic, Capacitor), CI/CD automation (GitHub Actions, GitLab CI, Azure DevOps), and AI-assisted development (Claude, GitHub Copilot, OpenAI).

Professional Experience

Onelife Capital Advisors Limited May 2023 – Present
Angular Developer – MEAN Stack *Thane, Mumbai*

- Architected and maintained 3 production Angular SPAs — Ready Inventory, Customer Portal, and 911Care (App & Admin) — using Angular 15+, Ionic, Node.js, and MongoDB, serving 500+ active users.
- Developed 6+ Hospital Management System modules (Nursing, Inventory, Billing, IPD/OPD) using Reactive Forms and Angular services, improving workflow efficiency for 100+ daily users.
- Built real-time analytics dashboards for sales and inventory tracking using Angular Material and RxJS Observables, enabling faster business decisions.
- Integrated Razorpay and Paytm payment gateways; built real-time WebRTC chat between Admin, Customer, and Vendor roles.
- Developed cross-platform Ionic mobile app with biometric login, FCM push notifications, and in-app payments using Capacitor; ensured cross-browser compatibility across Chrome, Safari, and Firefox.
- Set up CI/CD pipelines (Azure DevOps, GitLab CI) for automated build, test, and deployment across multiple Angular projects, using Docker for containerised local development.

Refr April 2022 – May 2023
Frontend Developer – Angular *Mumbai*

- Built responsive Angular SPA for CRM workflows including Store, Cart, Wallet, and Rewards modules, integrated with Firebase Firestore backend.
- Developed a reusable Angular component library, reducing cross-team development time by 15%.
- Managed Firebase CRUD operations with real-time data sync using AngularFire; ensured cross-browser compatibility and documented component APIs.

The Contrast October 2021 – April 2022
Angular Developer Intern *Mumbai*

- Developed reusable UI components in Angular following component-driven architecture and responsive design principles.
- Implemented CRUD operations and contributed to front-end architecture improvements; collaborated with senior developers via Git and GitLab.

Key Projects

Ready Inventory System | *Angular, Node.js, Express.js, MongoDB, NgRx* | Live Demo 2026 - Present

- Full-stack inventory management SPA with real-time sales, purchase, and stock tracking modules.
- Implemented role-based access control (RBAC) and real-time analytics dashboard with NgRx state management.

Customer Portal System | *Angular, Node.js, MongoDB, Razorpay, WebRTC* | Live Demo 2026 - Present

- Customer-facing dashboard with invoices, account statements, Razorpay payment integration, and real-time WebRTC chat.
- Optimized OnPush Change Detection strategy, improving rendering performance for large data tables by 35%.

Ready Salesman – Field Sales App | *React Native, Expo, Node.js, MongoDB, FCM* 2025 - Present

- Cross-platform (Android & iOS) field-sales app — offline-first sync, persistent background GPS tracking that survives screen-lock and app-kill, GPS + photo visit check-ins, and FCM push notifications.
- Single-handedly built the full stack — a Node.js/Express + MongoDB REST API (JWT auth) and an Angular live-tracking admin dashboard with Socket.IO and OSRM route optimisation.

911Care – Healthcare App & Admin | *Angular 15, Ionic, Firebase, Zoom API, Paytm* | Live Demo 2025 - 2026

- Healthcare platform with prescriptions, lab modules, and Zoom API video consultations.
- Implemented Paytm payment integration, FCM push notifications, and biometric authentication via Capacitor.

Hospital Management System (HMS) | *Angular, Node.js, REST APIs* | Live Demo 2023 – 2024

- Modular HMS with Nursing, Inventory, Billing, and OPD/IPD modules serving hospital staff daily.
- Integrated RESTful APIs for patient records, bed management, and billing workflows.

Refr CRM Platform | *Angular, Firebase, AngularFire* 2022 - 2023

- CRM SPA with Store, Cart, Wallet, and Rewards modules; improved Lighthouse performance score.
- Responsive UI optimized for both desktop and mobile using Angular and Firebase Firestore.

Technical Skills

Frontend: Angular (v12–v21), React Native, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, RxJS, NgRx, Angular Material, Bootstrap, Tailwind, PrimeNg
Mobile: React Native, Expo (SDK 54), Expo Router, EAS Build, React Navigation, Ionic, Capacitor, Push Notifications (FCM), Background Geolocation, Offline-first Sync, Biometric Authentication
Backend & APIs: Node.js, Express.js, RESTful APIs, Socket.IO, WebRTC, JWT Authentication
Database: MongoDB, Firebase Firestore, Firebase Realtime Database, AngularFire
DevOps & CI/CD: GitHub Actions, GitLab CI/CD, Git, GitHub, GitLab, NGINX
AI Tools: Claude (Claude Code), GitHub Copilot, OpenAI / ChatGPT, Cursor, AI-assisted Development
Integrations & Tools: Razorpay, Paytm, Zoom API, Cloudinary, OSRM, Postman, JIRA, Agile/Scrum

Education

Shivajirao S. Jondhale College of Engineering 2018 – 2021
Bachelor of Engineering (B.E.) – Information Technology *Thane, Mumbai*

S. H. Jondhale Polytechnic 2015 – 2018
Diploma in Computer Technology *Thane, Mumbai*

Certifications

Claude Code in Action | Anthropic (Skilljar) 2026
Angular – The Complete Guide | Udemy 2022
The Web Developer Bootcamp | Udemy 2021
